

Comac technologies

A stylized graphic of a spray gun nozzle, rendered in dark grey, is positioned diagonally across the center of a bright yellow background. The letters 'SST' are written in a large, bold, white sans-serif font, centered over the nozzle graphic.

SST

SST – Spray & Suction Tool

The Comac accessory designed to reach even the most difficult areas

The SST – Spray & Suction Tool kit by Comac enables impeccable cleaning results to be achieved, even in places the floor scrubber cannot reach.

The **spray gun** in the SST kit enables the solution to be sprayed in difficult areas, such as corners. The **extendible vacuum wand** enables everything to be collected, leaving the floor dry and clean. Furthermore, the spray gun can also be used to clean and **rinse the recovery tank** of the floor scrubber.

The ride-on floor scrubbers for which SST is provided: can be equipped with the Spray Tool or the Suction Tool only, or both (SST).

BENEFITS

- Cleaning and drying of even the most difficult to reach areas such as corners
- Easy, fast cleaning of the recovery tank
